Functional Manager	**Corbin Christian**	(SIGNATURE)	Date:

1.0 Scope:

The procedure applies to all facility personnel and external contractor services that are involved in inspections and treatment of warehouse facilities.

2.0 Purpose:

This standard operating procedure (SOP) describes the steps that will be followed to establish and maintain an effective pest control program within the HubStarr Logistics facility where finished goods or raw materials are stored.

3.0 Responsibility:

3.1. It is the responsibility of the HubStarr Logistics management to ensure this procedure is enforced.

3.2. HubStarr Logistics and facility personnel are responsible for adhering to and following the steps outlined in this procedure.

4.0 References:

None

5.0 Definitions and Abbreviations:

5.1. Insecticutors – Electronic devices used to attract and electrocute flying insects. Such devices are typically placed in or near door locations.

5.2. Rodent Traps – Devices that lure rodents for containment and extermination.

5.3. Pesticides – Chemical compounds that are sprayed and/or otherwise applied around the perimeter of a building to eliminate crawling insects and prevent movement into central areas of the facility.

5.4. Pheromone traps- chemical compounds used to attract insects for monitoring insect populations and location.

5.5. Pest Control Map – A drawing or diagram of the warehouse facilities with the exact number and location of any rodent traps, insecticutors, treatment area etc.

6.0. Process:

6.1. A professional exterminating service licensed by the local or state authorities will be bound by written contract and/or Quality Agreement with HubStarr Logistics.

6.2. The contract will specifically detail the services that are to be provided to HubStarr Logistics with respect to the following:

6.3. Frequency of facility inspections and treatments

6.4. Identification of any pesticide and, bait labels and MSDS utilized in the program, traps or other devices that will be used on the premises.

6.5. Documentation of all inspections and treatments will be recorded on a Pest Control Service Report that will be filed in the warehouse files for reference.

6.5.1 All monthly service reports will be reviewed at the next following Management Meeting. Any observations reported by the Pets Control Service will be addressed and resolved within 7 days.

6.5.2 Documentation provided by the professional exterminating Service will be kept on file by the facility or 3PL and will include:

- **6.5.2.1.** A copy of the service contract
- **6.5.2.2.** All service reports for the current (36) months
- **6.5.2.3.** A current business license
- **6.5.2.4.** The current Certified Pest Control Operators license
- **6.5.2.5.** Pesticide labels
- **6.5.2.6.** Pesticide and Bait Material Safety Data Sheets (MSDS)

7.0. Document History:

Revision	Change	Effective date
ORG	**Original Issue**	**10/10/20**
Rev A	**Update company change of name and Logo,** all references of Axle to HubStarr. Process Reviewed.	5/7/2024

This process is required to be reviewed, at a minimum, on a 3-year cycle. If there are no changes to the previous revision the signature below is evidence of the review and approval of this procedure.
