Functional Manager	**Ruben Urias**	(SIGNATURE)	Date: 10/29/25

1. Purpose

To ensure that all regulatory inspections are handled professionally, consistently, and in compliance with all applicable laws, regulations, and company policies.

2. Scope

This SOP applies to all HubStarr Logistics facilities and personnel who may interact with regulatory inspectors from any authorized regulatory agency, including but not limited to FDA, USDA, and state or local health departments.

3. Responsibilities

- **Receptionist / Front Desk (or designee): Notify site lead and compliance manager immediately upon inspector arrival.**
- **Site Lead / Supervisor (or designee): Always accompany inspector and ensure access to relevant areas and documentation.**
- **Compliance Manager (or designee): Coordinate inspection response, provide requested records, and oversee post-inspection follow-up.**

4. Procedure

A. Before Inspection

- Ensure all documentation is current and accessible.
- Designate a clean, private meeting space for inspectors.
- Train staff on inspection protocol and communication expectations.

B. During Inspection

1. **Inspector Arrival**
    - Greet inspector professionally.
    - Request identification and credentials.
    - Notify Compliance Manager and Site Lead.
2. **Escort and Access**
    - Inspector must be accompanied at all times.
    - Provide access only to relevant areas and documents.
    - Do not allow unsupervised photography or sampling unless authorized.
3. **Documentation**
    - Provide requested records promptly.
    - Record all documents reviewed and questions asked.
    - Take notes on inspector comments and observations.

C. After Inspection

- Conduct a debrief with involved staff.
- Review inspector's findings or report.
- Initiate corrective actions for any deficiencies noted.
- Document all follow-up actions and maintain inspection records.

5. Communication

- Inspection protocol must be communicated to:
    - Reception staff
    - Warehouse supervisors
    - Line leads
    - Any personnel likely to interact with inspectors

6. Records

- Maintain inspection reports, notes, and corrective action documentation in accordance with applicable regulatory retention requirements and company records retention policy.
- Store records in the compliance folder or designated digital system.

7. References

- Applicable FSMS modules and audit requirements
- Applicable federal, state, and local regulations

- **Document History:**
