Functional Manager	(SIGNATURE)	Date:

1.0 Scope: This procedure will apply when Drivers have to Pick up and Deliver, load and offload customer material from or to client locations. The document describes the standard operational procedures and requirements for performing the requested services.

2.0 To ensure all employees have a proper guide for Pick up and delivery, and to safely load and offload material at the jobsite. Employees at HubStarr Logistics will use this to help in the performance of their duties in a safe and productive manner. - In addition to the procedures set forth in this document, HubStarr Logistics Drivers shall comply with all government/state regulations as well as the policies set forth by our clients.

3.0 Responsibility:
It is the responsibility of HubStarr Logistics Drivers to follow this SOP.

4.0 References:
None

5.0 Definitions and Abbreviations:
SOP – Standard Operating Procedure

6.0 **Inspection and repairs** – trucks will be inspected prior to use to ensure good mechanical condition.

6.1. When working under or around trucks, for inspections or repairs, the truck must be locked and tagged out, and immobilized and secured against inadvertent movement.

6.2. Housekeeping – cabs, steps, windows, windshields, and mirrors must be always kept clean. All debris should be removed from truck and trailer.

6.3. Parking – the truck must be parked on level ground, clear of hazards, to allow ease of access.

6.4. Travelling – proper gear selection must be used to maintain control. Drive according to terrain conditions. Drivers are responsible for load security.

6.5. Tobacco Use • Tobacco use of any kind (smoking, chewing tobacco, etc.) is prohibited. Do not use tobacco products in the agency vehicles

7.0 **Safety**

7.1. All occupants of the vehicle must wear safety belts

7.2. The driver must obey all traffic laws while operating the vehicle.

7.3. Driving while impaired or consumption of alcohol while driving the agency vehicle is strictly prohibited

7.4. The legally posted mile per hour speed limit is the maximum speed for agency vehicles. If conditions make the speed limit unsafe, the driver should slow to whatever speed ensures safety.

Staff must possess a current driver's license and have completed the driver information form

7.5. Drivers should be careful, limit distractions and use good judgment at all times to insure passenger safety and to prevent damage to the vehicle

7.6. In case of an unscheduled stop, where driver cannot complete delivery, driver must notify Transportation Director and remain with truck until a replacement driver arrives to complete the assignment

8.0 Cellular Phones

8.1. Use of cell phones is discouraged while driving, if a driver needs to make or receive a call, the driver should pull off the road if it is safe to do so.

8.2. Texting or viewing of digital media while driving is prohibited.

9.0 Accidents

9.1. If you are involved in an accident, call the police to get exchange information. It may seem like a minor accident at the time, but later the other party may decide to file a lawsuit and the statement from an officer will be important.

9.2. Call the Transportation Director immediately to get help documenting the accident.

9.3. Turn in all reports from law enforcement as soon as possible.

10.0 Fueling

shut off the engine while fueling. No smoking. Be aware of slip and trip hazards. Beware of spills and splash-back. Return hose to its proper storage position when fueling completed.

11.0 Hazardous materials

11.1. Read WHMIS label. If there is no label, contact the supervisor. Refer to MSDS if further information is needed. Use protective equipment and follow safe handling instructions as outlined on WHMIS label. If an incident occurs, follow first aid instructions. Use proper storage procedures.

12.0 Security

12.1. Tamper-Evident Seals are used for all dedicated truck loads.

13.0 Trailer hook-up

13.1. When hooking up to a trailer, check fifth wheel to see if jaws are open, hook up air hoses, and set brakes on trailer, hook up and be sure the fifth wheel jaws are locked and the safety pin is secured and keyed. Check trailer dollies and be certain they are in up position. Truck must have flags, long/wide load signs and load permits where necessary. Unit must not be moved until air pressure is built up in tank and brakes are tested. Brakes on empty vehicles still have all the power necessary for a full load, so brake with extra care – is easy to over brake.
